HALL TALKS ON SILVER.

Views of the Second District Member on White Metal.

Washington, D. C., May 12.—Representative Hall of Missouri believes that the promise of unusually good crops in the West may have a most important bearing on the silver agitation in that section. Mr. Hall achieved some prominence in the last Congress by his pronounced advocacy of the income tax. He has also voted for the free coinage of silver, although he is not extreme in his views. He is, in fact, a conservative Democrat.

"There is, of course," he said to a Times correspondent, "a strong silver sentiment in my State. The Governor is pronounced in his opinions, and the two Senators are ardent advocates of free coinage. At the same time there is a general belief that it would not be wise to commit the party at this time to any expression upon the financial situation. We have no election in the State this year, and there is no reason why we should be hasty in our action. In fact, I understand that of the fifteen members of the State Democratic central committee only two are in favor of holding a State convention to take action on the currency question. One of these is against it personally, but will be guided by the wishes of his constituents."

"Do you believe that such a convention will be held?"

"I do not. If the State committee does not call it there is no way in which it can assemble unless the people of the State take the matter into their own hands, and by holding county conventions, select delegates to a State convention to be called by newly-chosen State committeemen. This is a succession of events which I do not regard as probable. One of the causes that will operate against such a spontaneous but irregular action is the fact that there will be ten or fifteen candidates for every State office at the next convention next year, and each one of the aspirants does not want his county or his party committed now to a position which may be embarrassing a year hence. We must proceed with considerable consideration in Missouri. We must not, in view of our experience last year, run any unnecessary risks. Above all things, there must be no disorganization in the party, and disorganization would be threatened by any action now upon the silver question. We are certain to have good crops. Our corn and wheat both promise an abundant harvest, and when we have gathered and sold our products we can take a day or two off and talk over the financial question."

"What is the Presidential talk in Missouri?"

"There is some sporadic gossip, but nothing definite. It would not be even safe to predict whether Missouri will send a delegation pledged to a free coinage candidate. Morrison is very highly regarded, and I believe he could carry the State. Personally, I would like to see the Republicans nominate McKinley and we put up William L. Wilson. That would make a great fight along straight lines, and I am willing to wager right now that McKinley would not win."

While the son and uncle of J. A. Offil were hauling hay from the stock yard to the barn May 13th, the horses became frightened at some hay falling on them and ran away. After running about a mile west to the Elm Grove school house, they were caught by some of the scholars. No one was injured.

Played With Powder.

Louisville, Ky., May 12.—A special from Salersville, Ky., says a pitiful accident occurred near there Friday afternoon, in which one and probably two lives will be sacrificed. Two children of Wesley Row tried to start a fire by pouring powder out of a horn containing a pound and a half on a small coal fire, when the powder in the horn ignited and exploded, tearing one arm entirely off the girl, 16 years old, and burning her hair and clothing entirely off. A brother, a boy of 6, was standing near and parts of the horn struck him in the face knocking out both eyes and burning off all his clothing and hair. He may recover.

Shot in a Box Car.

Fort Scott, Kan., May 15.—R. B. Luther of Kansas City, a commercial agent for the Santa Fe railroad, while out hunting at Ash Grove, Mo., last week, shot at a mark on a box car on the Memphis road. He hit one of the seven tramps, who were sleeping in the car. The tramp is probably fatally injured. Luther obtained from the injured man, Thomas Henry, an affidavit exonerating him from all blame for the accident. Mr. Luther is out on bond of \$500 and his trial is set for next week. Henry is in the hospital here and Mr. Luther has employed the best physicians and nurses to attend him. The ball entered his abdomen.

Divorced From His Tenth Wife.

La Porte, Ind., May 9.—Abraham Rimes was to-day granted a divorce from his tenth wife. The evidence disclosed the fact that Rimes' last wife was his first bride and that he had married eight other aspirants for his affections before he was again wedded to his first, from whom he was legally divorced shortly after marriage.

Lieut. Governor Alfred Milnes sent his resignation to Governor Rich of Michigan, Thursday, to take effect May 31, the date fixed for adjournment of the Legislature. Mr. Milnes has succeeded Julius C. Burrows as Congressman.

Gordon is Dismissed.

Louisville, Ky., May 9.—The city court was crowded again to-day when the case of Fulton Gordon, charged with the murder of his wife and Archie Brown, was recalled. Arguments were made by attorneys for both sides.

After the arguments were completed and the case closed Judge Thompson announced that he could not hold the prisoner and that he would discharge him, as an object lesson to other adulterers. Never was a crowd more demonstrative in its appreciation than was the large throng in the police court when Judge Thompson announced in a clear tone the verdict in the case. In explanation, the judge said that there was no evidence of guilt on Gordon's part, but that the adulterer and adulteress stood on the verge of an abyss of ruin and death, and that their fate was only what could be expected. Thus ends the last chapter to the most sensational tragedy in the history of Kentucky.

Houses Swept Away.

Herington, Kan., May 7.—The town and surrounding country were flooded by a cloud burst Sunday night. Lime creek, which had been dry for many months, overflowed with water, carrying away houses, horses and cattle. John Williams' house was swept away and his family narrowly escaped drowning. Sam'l McManus' house was carried away and wrecked by striking a bridge. Mrs. McManus was drowned. Her body was found lodged in a tree south of town Monday morning.

He Died as a Pauper.

Chicago, May 11.—The county infirmary reports the death as a pauper at the institution of Dwight J. Hitchcock, ex president of the Illinois Midland railway, now part of the Vandavia. He became an inmate May 3 and was in the last stages of consumption. He had formerly been quite a wealthy man, but the records bear the inscription: "No friends." He lost his money in unfortunate speculation.

The Wish Gratified.

You have often wished for something to take the place of pills. Now try a 25 cent package of Simmons Liver Regulator, powder. Take it dry, on the tongue, or make it into a tea. It is pleasant to take, and gives quick relief—two good recommendations.

Grover's Sad Plight.

Washington, D. C., May 16.—Private Secretary Thurber says the President is in receipt of 42 letters from persons who are blessed with twins, triplets and quadruplets, the writers saying they have named their youngsters after his family. All ask for money. No attention will be paid to such letters.

One petitioner, who had been blessed, with four new arrivals, wrote: "We have named three, Frances, Ruth and Esther. What shall we name the other? We thought of naming her Groverette, if this is satisfactory. Do you think you could remember us as you did the triplets, as we have gone them one better?"

Carroll Rebuked.

Macon, Mo., May 15.—Secretary W. E. McCully of the Macon County Democratic Committee has answered the letter of State Democratic Committeeman Carroll, who sought to ascertain the wishes of Democrats with the respect to the calling of a State convention on the money question. Mr. McCully says that he believes in the unlimited coinage of silver at the 16 to 1 ratio; that no other issue will be so important to the Democrats in the next campaign, and that he thinks perhaps 75 per cent of the Macon County Democrats share his silver views. Hence, he thinks the calling of an early convention "would be proper."

No Marks of Violence.

Warrensburg, Mo., May 13.—The body of an unknown man was found yesterday in a deserted house one and a half miles from La Tour, this county, by a man named Hunt, passing on horseback. The man had been dead at least four or five days. A letter dated two years previous addressed to Bascom Moore, was found on his body. There was no mark of violence.
